

Buy RFID TAGS for better commute experience

Dear Elevated Highway user,

Elevated Highway on Hosur Road which was built by BETL under the supervision of NHAI is in operation from 2012 and has significantly improved commute time to electronics city. However due to limitation on number of lanes and heavy peak hour traffic, recently long queues are common sight near Toll plaza in EC1.

One of the solutions to avoid such delays is to register for RFID tags. As you are aware, cash transactions coupled with non-availability of exact change take too much time. We would like to reiterate the advantages of RFID Tags:

- Faster passage through RFID Lanes
- Avoid traffic pile up at Toll gates
- Cashless transactions
- Easier accounting
- Lesser expenditure

Please see overleaf for **procedure** to buy RFID tags from BETL

Even if you are a visitor, you can buy tags and use whenever you come to electronics city. Request your cooperation to help us to ensure you to have a better commute experience coming to Electronics City.

THANK YOU, HAVE A NICE DAY
