

Ref: ELCITA NOTIFICATION/003/2019-20

Date: 26<sup>th</sup> February 2020

**Notification**

Sub: Usage of private land for junction improvement and road widening for better commute of employees and easier movement of goods vehicles

ELCITA has been approaching industries / companies for the usage of land owned by them, for junction improvement and road widening, for better commute of employees and also for easier movement of goods vehicles. With vertical growth happening within Electronics City, it is becoming imperative to take steps to widen the roads and improve junctions on priority. ELCITA committee proposes to widen existing roads and make new roads. Requirement of specific land area for this purpose will be published from time to time. Industries / companies will be approached to provide the required land area for such usage. Additional development rights, which can be used within their project, will be offered as compensation.

ELCITA will be entering into MoUs with the respective industries / companies for such usage.

The Committee agreed to approach the industries / companies, and get the required land area for widening of roads and junctions for traffic improvement purposes.
